Dear President Joe Biden,

I hope this letter finds you well. With all due respect, I wish to bring to your attention a matter of concern regarding your recent response to a journalist's question about Afghanistan on May 24th, 2024. In your statement, you mentioned that "Afghanistan is the grave of empires" while also stating that the Afghan nation may never be united.

I would like to respectfully express my viewpoint on this matter. While it is true that the Afghan nation may have differences in personal issues or interests, history has shown that when faced with matters of national interest, they have always come together as a united force, akin to an iron fist. This unity is what has historically made Afghanistan the "grave of empires."

I am concerned that your statements may reflect a misunderstanding of the Afghan people's resilience and unity in the face of challenges. It appears that your approach may inadvertently align with the old "divide and rule" policy employed by the British in the past, which aimed to weaken Afghanistan for external gains in the region.

I respectfully urge you to consider the rich history and strength of the Afghan people when formulating policies and decisions related to Afghanistan. It is crucial to approach the situation with a deep understanding of the complexities and nuances of the region to ensure a positive and sustainable outcome for all involved.

Thank you for considering my perspective on this matter.

Sincerely,
Engineer Fazel Ahmed Afghan.
